She has a life insurance policy issued by the First National Life Insurance Company on 24 August 1942 and a premium book showing that it was fully paid up on 27 August 1962. The address provided with this insurance policy is 632-636 Baronne St, New Orleans, LA, but she can find no listing for the company today. Can you help us find out what happened to this company? Has it gone out of business? Does it still exist with a new name? Thank you for any help you can give us. "**
